

## Virtual Recycling Presentation

Find out what happens to our trash, how recycling really works, how to properly dispose of household hazardous materials and other important issues affecting our environment in Rockland County.

### Who can book a presentation?

- Rockland County private and public Elementary, Middle and Senior High schools,
- Rockland County Colleges
- Adult groups (such as civic, senior, garden, residential and other interested groups)
- Presentations are available to schools and organizations outside of Rockland County with approval

### What are the requirements to book a presentation?

- The school must send a link to the Educator to setup the Presentation.

### When are the presentations given?

- Monday through Friday — Morning, afternoon and evening presentations are available. For a Saturday or Sunday presentation please call for information

### How long are the presentations?

- The presentation is customized for each group

### Who will be conducting the tour?

- A Waste Educator conducts the entire presentation

### What will we be discussed during the presentation?

- The presentation begins with a PowerPoint introduction to the Rockland County Solid Waste Management Authority
- Find out how our waste is handled in Rockland County: recycling, trash, hazardous waste, and leaf composting
- A short video viewing how the recyclables: paper & cardboard - plastic, metal, glass & paper cartons are sorted before they are sent to remanufacturing facilities to be made into new products.
- Though an interactive discussion the students, residents or organization will have a good understanding of Rockland County's waste management programs, environmental concerns, and solutions.

For more information or to schedule a presentation, contact Jennifer Sheridan, Assistant Educator at 845-753-2200 ext.634 or email [jsheridan@rocklandgreen.com](mailto:jsheridan@rocklandgreen.com)
