

Haverstraw Food Scrap Composting Program

Howard T. Phillips, Jr., Haverstraw Town Supervisor and
Chairman of Rockland Green

The Town of Haverstraw
is partnering with
Rockland Green to compost the
Town of Haverstraw residents' food scraps!
Why separate your food scraps?

Food scraps are the single largest component in the Municipal Solid Waste stream (MSW). Decomposition of food scraps in a landfill produce methane, a greenhouse gas 20 times more damaging than CO₂. Food scraps are valuable materials that if properly collected and composted can help reduce pollution and improve overall quality of life. Your food scraps will be processed into a beautiful nutrient-rich soil amendment instead of heading to a landfill that is over 300 miles from Rockland County.
